

PharmaGuard AI

AI-Powered Pharmacovigilance and
Regulatory Submission Readiness Platform

Team: **PHARMANOVA**
Track: AI

The Pharmacovigilance Bottleneck

Fragmented, manual pharmaceutical safety and regulatory workflows.

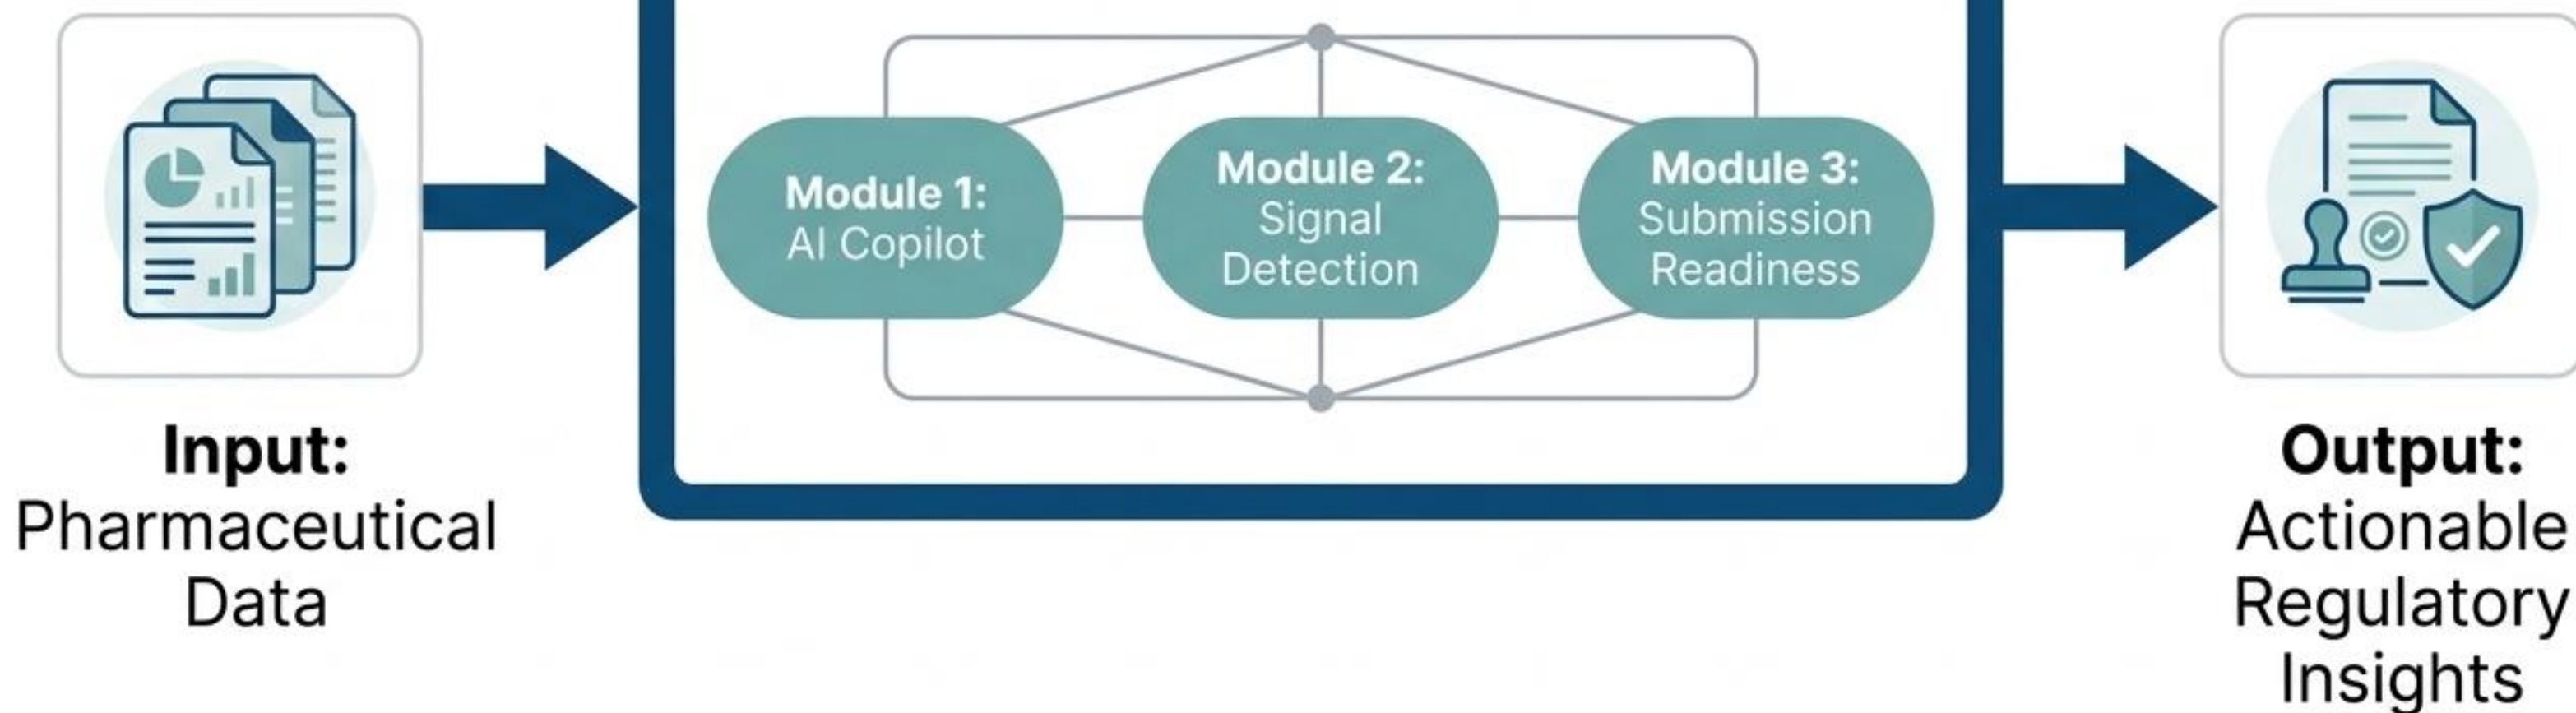

Pharmacovigilance and regulatory submission teams.

Time-consuming analysis creates the risk of missed safety signals and incomplete submission readiness.

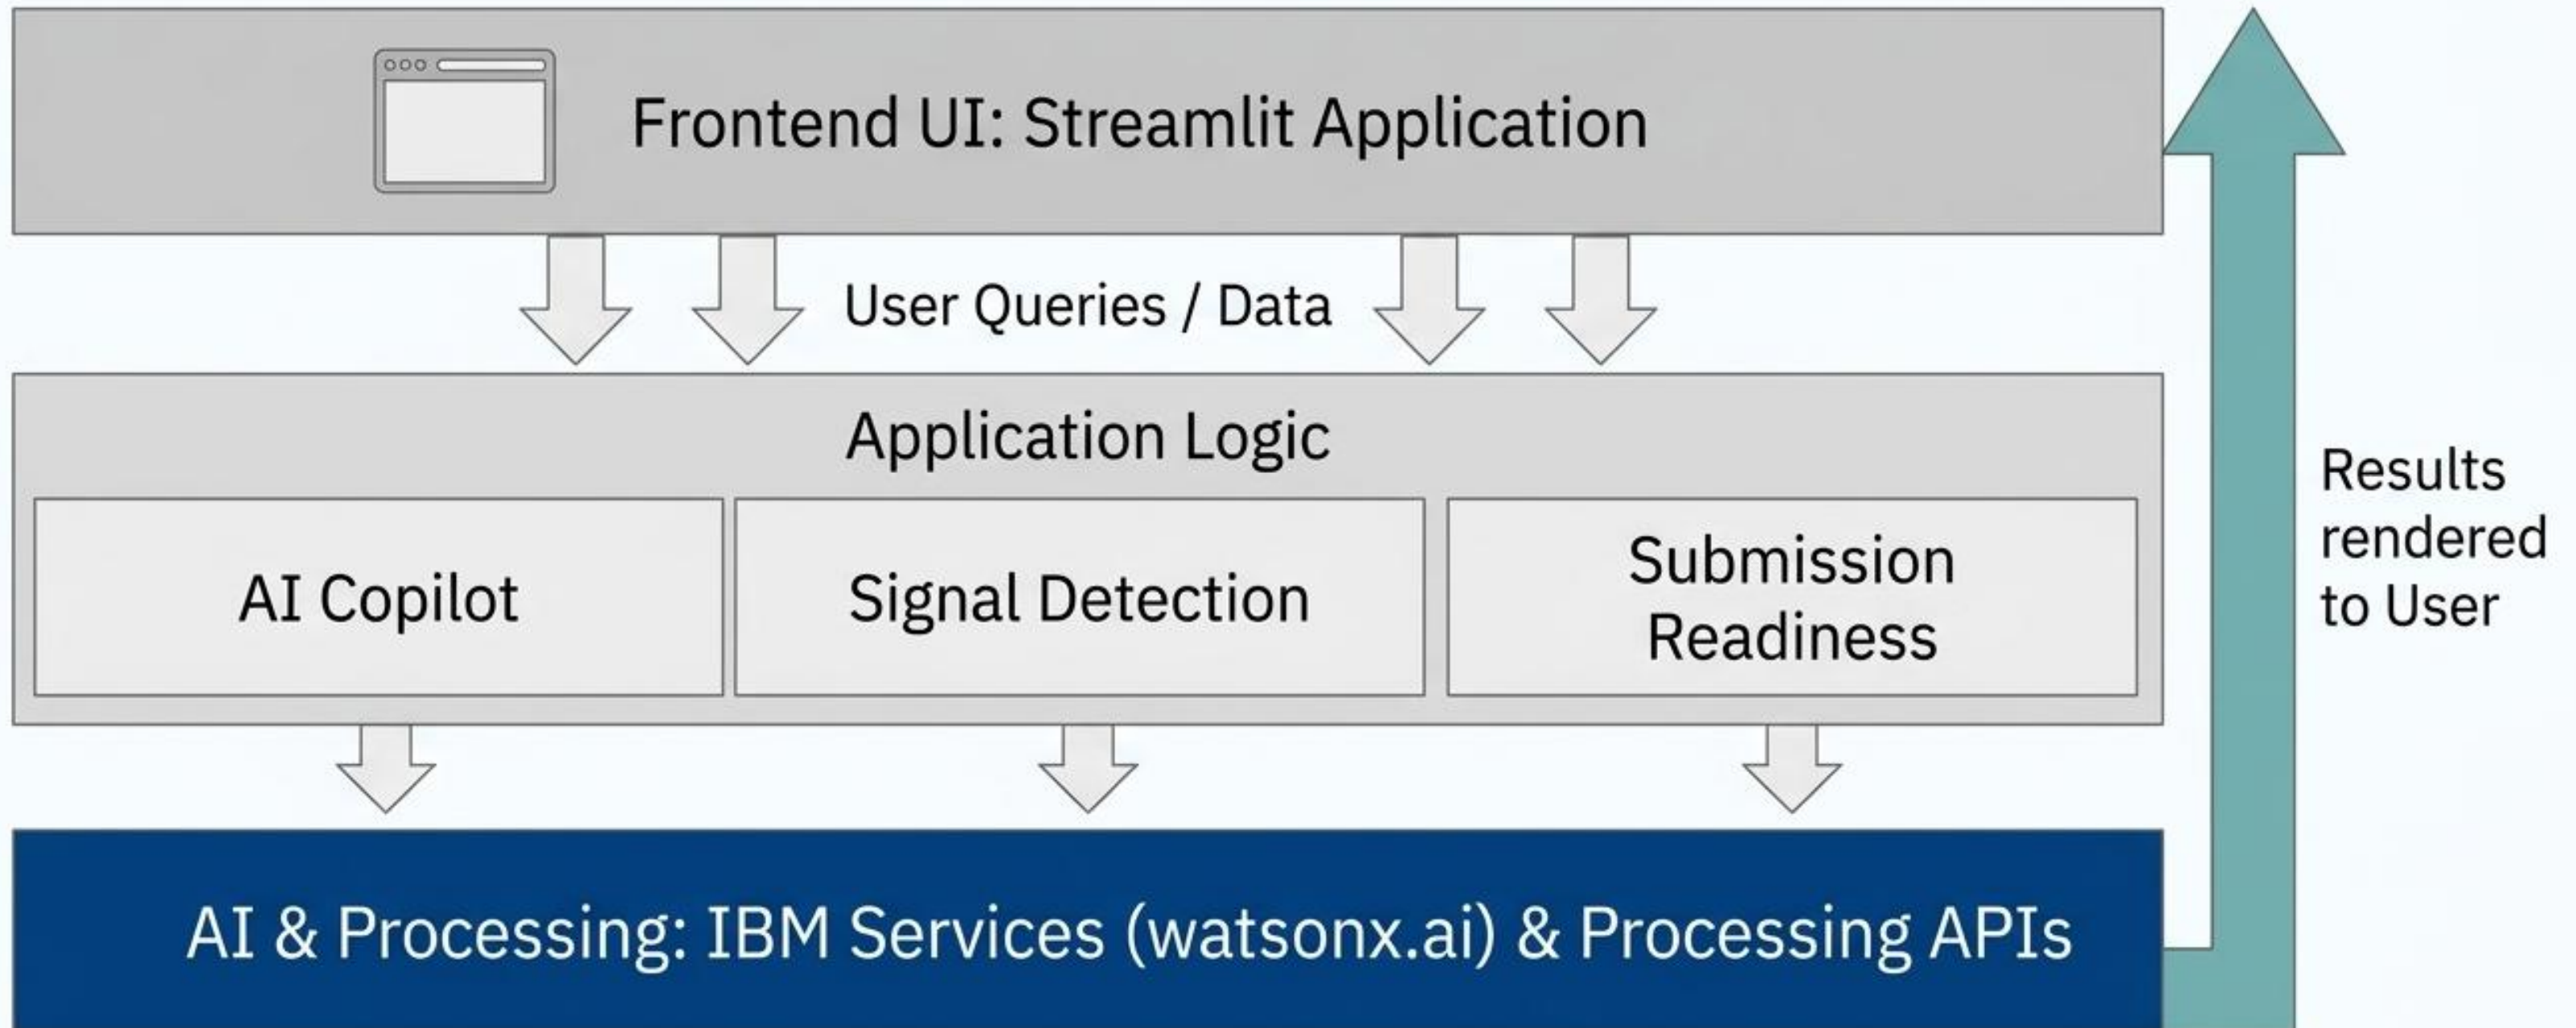

Introducing PharmaGuard AI

Platform: PharmaGuard AI

Technical Architecture

Key Feature: AI-Assisted Analysis

Powered by IBM

IBM watsonx.ai

Application Integration: Powers the AI Copilot and intelligent analysis for pharmacovigilance insights.

IBM Bob

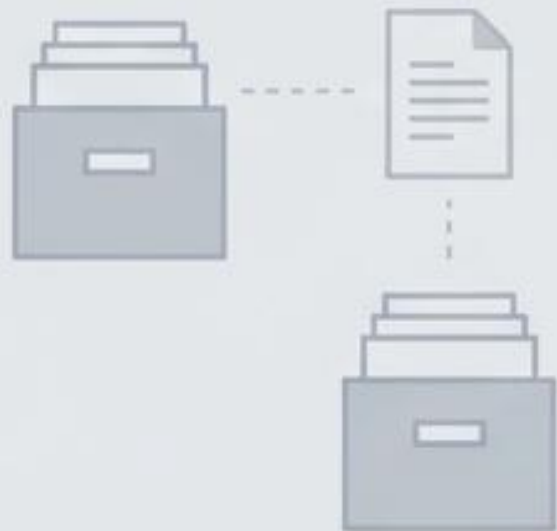

Development Integration: Utilised during the development phase for coding assistance and project building.

Prototype Impact

BEFORE: Manual Workflow

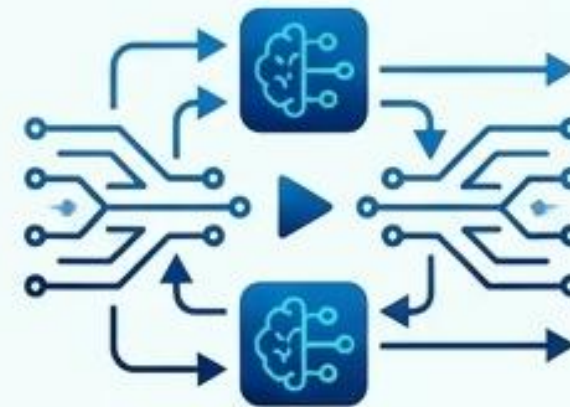

Fragmented data analysis

Siloed regulatory readiness

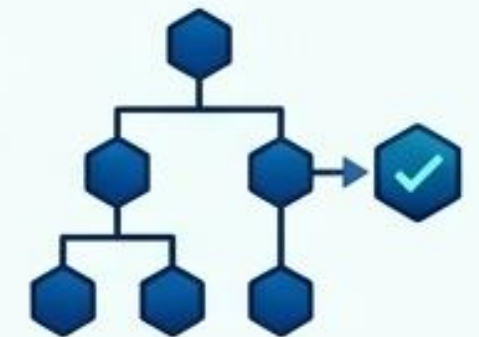

AFTER: PharmaGuard AI

Centralised information

Automated AI workflow assistance

Clearer decision support
